

**Daniel E. Everitt, MD**  
Vice President and Senior Medical Officer

Dr. Everitt serves as Senior Medical Officer and works with the clinical development of products in the TB Alliance portfolio. Prior to joining the TB Alliance, he spent 10 years in Johnson & Johnson's pharmaceutical sector. There, Dr. Everitt served in various roles, including as Vice President and Global Head of Clinical Pharmacology and Experimental Medicine at Johnson & Johnson Pharmaceutical Research and Development, and as Vice President of Safety Governance. Before working at Johnson & Johnson, Dr. Everitt spent 10 years in clinical research and development at SmithKline Beecham Pharmaceuticals. For six years, he was an Investigator in the Clinical Pharmacology Research Unit based at the University of Pennsylvania, and subsequently led Phase 2-4 development projects based in Harlow, United Kingdom, in the areas of neurosciences and anti-infectives.

Dr. Everitt gained his undergraduate degree from Duke University and his medical degree from Harvard Medical School. After an Internal Medicine residency at the Massachusetts General Hospital, he was a Fellow at Harvard in Geriatric Medicine and Clinical Epidemiology. Dr. Everitt is Board Certified in Internal Medicine, Geriatric Medicine and Clinical Pharmacology. He served on the faculty of departments of medicine at Harvard Medical School and at the University of Pennsylvania. In 2011, Dr. Everitt completed training and received a Diploma in Tropical Medicine and Hygiene from the London School of Hygiene and Tropical Medicine. Just prior to joining the TB Alliance, Dr. Everitt spent several months as a volunteer physician working in mission hospitals in Kenya. He is an author or co-author of 50 publications in peer-reviewed journals in the fields of Clinical Pharmacology and Pharmacoepidemiology.
